

Neocortical Epilepsies

Written by leading international authorities, this volume is the first reference to discuss neocortical epilepsies as a distinct subset of epilepsy syndromes. Coverage begins with in depth reviews of the functional anatomy and cognitive functions of the normal human neocortex. Subsequent chapters focus on the epileptic human neocortex and the classification and clinical characteristics of neocortical epilepsies. An extensive section examines the sophisticated neuroimaging studies and other techniques that are now used to localise and evaluate neocortical seizures. Other major sections discuss the use of standard and new drugs in treatment and describe current techniques for surgical treatment

Neuronal bursting properties in focal and parafocal regions in pediatric neocortical epilepsy stratified by histology. Marcuccilli CJ(1), Tryba AK, van Drongelen WÂ Severe Neocortical Epileptic Syndromes in Infancy and Childhood Ann Neurol. 1997 Aug42(2):194-9. Hippocampal N-acetylaspartate in neocortical epilepsy and mesial temporal lobe epilepsy. Vermathen P(1), Ende G, LaxerÂ Temporal Lobe Epilepsy Epilepsy Foundation Ann Neurol. 1996 Nov40(5):724-30. Clinical features of neocortical temporal lobe epilepsy. Pacia SV(1), Devinsky O, Perrine K, Ravdin L, Luciano D, VazquezÂ Neocortical temporal lobe epilepsy. Epilepsy Res. 2002 Feb48(3):199-206. Ictal electrocorticographic findings related with

surgical outcomes in nonlesional neocortical epilepsy. Park SA(1), Lim Clinical features of neocortical temporal lobe epilepsy. - NCBI selected group of patients with neocortical epilepsy, the finding that high-frequency (60±100 Hz) epileptiform oscillations are highly localized in the seizure onset. Severe Neocortical Epileptic Syndromes in Infancy and - NCBI Neurosurgery. 2014 Dec75(6):648-5discussion 655 quiz 656. doi: 10.1227/NEU.0000000000000530. Factors associated with failed focal neocortical epilepsy Layer-Specific CREB Target Gene Induction in Human Neocortical There are two types of temporal lobe epilepsy one involves the medial or internal structures of the temporal lobe, while the second, called neocortical temporal Ripple classification helps to localize the seizure-onset zone in Surgical therapy for intractable neocortical epilepsy remains suboptimal and may produce neurologic deficits not predicted from presurgical evaluation The therapeutic potential of focal cooling for neocortical epilepsy. Neocortical temporal lobe epilepsy (nTLE) is a rather newly recognized entity that is different than the well-known entity of mesial temporal lobe Prognostic factors in neocortical epilepsy surgery: multivariate Neocortical seizures are often poorly localized, explosive and widespread at onset, making them poorly amenable to epilepsy surgery in the Magnetoencephalography in neocortical epilepsy. - NCBI Hippocampal N-Acetylaspartate in Neocortical Epilepsy and - NCBI PURPOSE: Defining prognostic factors for neocortical epilepsy surgery is important for the identification of ideal candidates and for predicting the prognosis of Single and multiple clusters of magnetoencephalographic dipoles in Seizures evolve in three stages: initiation, propagation, and termination. Surgical strategies for stopping seizures attempt to interrupt either seizure initiation or Intracranial EEG seizure-onset patterns in neocortical epilepsy. - NCBI Kozhevnikov-Rasmussen syndrome is a severe, probably acquired, neocortical disorder characterised by intractable, mainly focal, motor seizures, epilepsy High-frequency oscillations and seizure generation in neocortical Epilepsia. 2000 Nov41(11):1450-5. The clinical usefulness of ictal surface EEG in neocortical epilepsy. Lee SK(1), Kim JY, Hong KS, Nam HW, Park SH, Chung The unilateral cobalt wire model of neocortical epilepsy: a method of Neocortical epilepsy differs from other kinds of epilepsy because often there is no clearly defined area from which the seizures originate. Ictal electrocorticographic findings related with surgical outcomes in Hippocampal N-acetylaspartate in neocortical epilepsy and - NCBI Our results indicate that seizure generation is primarily driven by rapidly Propagation and Termination in Human Neocortical Epilepsy. Refractory Nonlesional Neocortical Epilepsy: Current Trends Open Epilepsia. 2006 Feb47(2):355-64. Single and multiple clusters of magnetoencephalographic dipoles in neocortical epilepsy: significance in characterizing the Factors associated with failed focal neocortical epilepsy surgery. Neocortical epilepsy is a type of seizure disorder that can be either partial (focal) or generalized, in which the seizures originate in the neocortex, par. The clinical usefulness of ictal surface EEG in neocortical epilepsy. Neocortical Temporal Lobe Epilepsy - Hindawi Neurotherapeutics. 2009 Apr6(2):251-7. doi: 10.1016/.2008.12.002. The therapeutic potential of focal cooling for neocortical epilepsy. Rothman SM(1). UCSF Epilepsy Center Research Neocortical Epilepsy Surgery Trial PURPOSE: We investigated neocortical seizure-onset patterns recorded by intracranial EEG with regard to anatomic location, pathologic substrate, and Imaging pre-ictal hemodynamic changes in neocortical epilepsy The Neocortical Epilepsy Surgery Trial (NEST) will be the first of its kind to will study the effectiveness of surgery for a specific type of epilepsy that has not been Neocortical Epilepsy NJ Surgeons - Neurosurgeons of New Jersey Adv Neurol. 200084:415-23. Magnetoencephalography in neocortical epilepsy. King DW(1), Park YD, Smith JR, Wheless JW. Author information: (1)Department Dynamic Network Drivers of Seizure Generation, Propagation and To test whether the hippocampus is also damaged if the focus is outside the hippocampus, we have measured patients with neocortical epilepsy (NE). Therefore High-frequency oscillations and seizure generation in neocortical Epilepsy Res. 2004 Sep-Oct61(1-3):153-60. The unilateral cobalt wire model of neocortical epilepsy: a method of producing subacute focal

seizures in rodents. Local Cooling: A Therapy for Intractable Neocortical Epilepsy In this paper, we will critically review the literature on data from neocortical epilepsy using optical imaging and discuss these pre-ictal hemodynamic changes. Neuronal bursting properties in focal and parafocal regions in The following are severe neocortical epileptic syndromes with onset in infancy and childhood: Neocortical Epilepsy Columbia Neurosurgery To understand why some areas of cerebral cortex produce seizures and others do not, we identified differentially expressed genes in human epileptic neocortex.
