

The Future of Western Civilization-Introduction to the Series (The Future of Western Civilization Series 1 Book 0)

Dr Nicholas Beecroft, a Military and Organizational Psychiatrist, has spent 25 years exploring the worlds of Medicine, Psychiatry, Business, International Relations and the Military. In this Series, he interviews visionary leaders to discover their inspiring, positive and practical visions for the future and challenges them with incisive questions. Who are we? Where are we going? How can we boost our cultural confidence? Can we be patriotic, open, diverse and global at the same time? How do we harness capitalism to get what we really want? How do we remain free and safe whilst Islam undergoes its global awakening? Can politics integrate the best of all shades of opinion? How should we combine wisdom with science? Is the West still best? Can we agree upon a shared language for God, life and spirit? How can we heal the wounds of our history so as to empower our present? What is the Master Code of natural design, our psychological and cultural DNA? What do the generational cycles of the past predict about the future? How do we bring compassion and healing back into medicine? How can we maximize human potential? What's the future of Europe, the Euro and the European Union? How are masculinity, femininity and the family evolving? How do we live in harmony with nature without economic collapse? Can we make our Civilization so attractive that others choose to become friends and allies? Future of Western Civilization Series 1, Book 1 Introduction to the
