

## Gestalt therapy, retracing a path

“Gestalt therapy: Retracing a path” is the result of a careful process of theoretical research. This book presents Gestalt therapy’s base philosophies “ Humanism, Phenomenology and Existentialism ” and base theories “ Gestalt Psychology, Field Theory and Organisms and Holistic Theory ”, all of which provide Gestalt therapy with an epistemological foundation. This book joins theory and practice, providing the reader with a broad, objective and critical vision of the modus operandi of the Gestalt approach. A fundamental work for all those interested in understanding the internal logic interconnecting the various theories that result in a consistent clinical practice, a working method, and a theory of person, here and now and in action.
