

Pathways to Wholeness: Archetypal Astrology and the Transpersonal Journey (Muswell Hill Press)

The exploration of the psyche in non-ordinary states of consciousness provides access to powerful transformative experiences that can lead us towards a more complete experience of being human [the realization of a deeper identity] while also yielding extraordinary insights into the ultimate nature of reality. In this book, Renn Butler explains how to use archetypal astrology as a guide to the transpersonal journey. Described by Stanislav Grof as “the Rosetta Stone of consciousness research,” archetypal astrology is based on a correspondence between planetary alignments and archetypal patterns in human experience. Based on thirty years of research, *Pathways to Wholeness* is an indispensable reference book for explorers of the inner worlds.
