Finalist in the 2015 INDIEFAB Book of the Year Awards and semifinalist in the 2015 Kindle Book Awards, Do Not Resuscitate is the firsthand account of Jim Frost, an aging misanthropist who witnessed the rise and fall of the United States as a world power, the digitalization of the planet, the advent of the water wars, and the near collapse of the global economy. Yet he remains impervious to it all. Concerned more with his plasma TV, high-speed Internet, and continual supply of hash, twentysomething Jim takes an under-the-table job off Craigslist delivering mysterious red coolers to strangers in cafÃ©s in an effort to pay the bills. But when Jimâ€™s enigmatic employer asks him to fly to North Korea for a delivery, Jim starts to wonder what heâ€™s gotten himself into. Do Not Resuscitate received honorable mention at the 2015 Green Book Festival, which spotlights books that contribute to greater understanding, respect for

and positive action on the changing worldwide environment.
