

Living in Shadow and Light: The harrowing story of a woman who survived domestic violence showing you how to help your loved one overcome battered woman syndrome

Domestic violence is not something that happens out there to other people you don't know. It's a contagion of silence. Silence from within, where we victims of spousal abuse cling to our need to hide, to deny its existence. Silence from the outside, because the woman being beaten & abused, the girl suffering from increasing levels of PTSD, are falling deeper into the battered woman syndrome. She is your daughter. Your sister. Your mother, your friend, your niece and your neighbor. You know and care for a woman who is being beaten. This powerful new book is part biography, part expose, part provocative treatise on the issues facing us, every day, with domestic violence. The author lets us in on her own journey through the darkness of being an abused child, through increasingly difficult and dangerous relationships, culminating with her husband throwing her from a moving vehicle the night he realized she meant it when she said she was leaving. Harrowing, chilling, incomprehensible, yet warm and engaging, Roxanne shows us that the misconceptions and misperceptions we carry about domestic violence are killing the girls and women we know and love. The blinders are removed, and though this is a difficult read in its honesty and insight into the world of domestic violence from the point of view of the victims, it is also a challenge to leave those blinders by the wayside. Going through the pages of this book is to realize that domestic violence is an issue of us as community, as

family, and as friends. People we know and care about are delivering the violence, and people we know and care about are on the receiving end. The book begs us to let go of our common ideas of domestic violence, and ask ourselves some tough questions. In answering those tough questions the author further challenges us to discover that the situation we face with spousal abuse and intimate partner violence can no longer be easily dismissed. We arrive at a deeper and richer understanding, a fuller awareness of how the violence plays out. We also arrive at our own levels of choice about shifting conversation, of breaking the walls of silence in healthy ways, so that the women and girls we know and love are safe, free, and can build their lives with some self reliance. Any reader finishing the journey through this heart rending book, honestly asking the questions posed by the author, will find themselves changed, and compelled to help the woman and girl you love break free of the cycle, and restore her sense of dignity and self value.
