Graphic novel/ art book/ psychological journey, transpersonal picture book, for those who have fully developed their reasoning powers and have had enough life experience. All volumes of BEINGS are self-contained, you do not have to have read previous volumes to understand the content. Would be of interest to those who want to understand the oneiric, automatic art and intuitive expression. Anyone in the fields of transpersonal therapy, should have a look, or keep a copy in their lounge. Adults often resort to childrens pictures books for the oneiric, but thats not fair to our maturity. Beings, is refreshingly, not childish, but it is mostly pictorial in content. The door opens on lore, ethics, concrete facts and elicits something else other than the points known in worn out continuums. The sense that is strange, that is enacting on my feelings, asking for imagery for thinking to develop, is asking for something to change.
