

# The Spanish Story of the Armada An Other Essays (Classic Reprint)

A fthr completin my History of England from the fall of Wolsey to the defeatof the Spanish A rmada, I had intended to pursue the story of the sixteenth century, and to wnt.e the lives of Charles the Fifth and Philip the Second. To them had fallen the task of confronting the storm which had broken over the rest of Europe. The opening of the Archives of Spain, Paris, and Vienna had for the first time made it possible to see the position in which they found themselves, tunderstand their characters and to weigh impartially their conduct in a situation so extraordinary. My own partial researches had already shown me that the prevailing opinions about these two princes required wide correction, and I thought that I could not better employ the remainder of my life than on an enquiry so profoundly interesting. To regard the Emperor, to regard Phi Upmerely as reactionary bigots, is as unjust as it is uninstrutive. They had to deal with a world in arms, with a condition in which society was disintegrated by a universal spiritual revolt, of which the outcome was still utterly uncertain, and at such a crisis the wisest statesmen must have necessarily been divided on the conduct which duty required of them.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books
