

In the Grip of the Nyika: Further Adventures in British East Africa (Classic Reprint)

In the following pages I have endeavoured to give a plain account of the trials and adventures which befell me on two recent expeditions through the nyika, or wilderness, in British East Africa. On the first trip there were three of us, and all returned safely to civilisation, although dangers were not wholly absent. On the second and longer expedition there were also three Europeans, but, alas! only two got back, the nyika having claimed the third; nor was the god of the wilds content with this sacrifice, for, in addition, he claimed several of my native followers. He laid his deadly grip on me as well, but I was wrested from him by the care and attention of my companion, to whose skilful nursing I feel I owe my life. In relating the events of the journey I have considered it incumbent on me, not only to tell the exciting adventures among the wild men and wild beasts of the regions traversed, but also to give some of the more tiresome detail connected with a safari in the nyika, as my object all through has been to describe everything exactly as it actually happened. I trust that future travellers along the route taken by me will find my maps of some use. (Typographical errors above are due to OCR software and do not occur in the book.)
