

Therapeutic Modalities for Allied Health Professionals

Intended for use in courses where various clinically oriented techniques and methods are presented. Not a modality cookbook, but a presentation for the basis of use for each modality which allows the therapists to make their own decisions in a given situation. All therapists use some type of modalities from a simple ice pack to electrical current stimulations, and this title features comprehensive coverage of all the therapeutic modalities used in a clinical settings. In addition, strong textbook aids such as chapter objectives, lab activities and case studies help clarify and reinforce the material presented.
