

Brief Person-Centred Therapies (Brief Therapies series)

Can the person-centred approach work in time-limited counselling and psychotherapy? This is a question that many practitioners grapple with as demand for brief therapy increases - particularly in the public sector. Brief Person-Centred Therapies is the first book to tackle the subject, bringing together the experience and insights of a leading international team of person-centred specialists. The book examines the theoretical fit between the person-centred approach and brief therapy. It also explores the issues which arise when working briefly in a range of different settings, including primary care, higher education and business. Brief Person-Centred Therapies is essential reading for all person-centered trainees and for practitioners who want to work in services where brief work is called for.
