Hill of A llen, wide A Imhuin of Leinster, where Finn and the Fianna lived, according to the stories, although there are no earthen mounds there like those that mark the sites of old buildings on so many hills. A hot sun beat down upon flowering gorse and flowerless heather; and on every side except the east, where there were green trees and distant hills, one saw a level horizon and brown boglands with a few green places and here and there the glitter of water. One could imagine that had it been twilight and not early afternoon, and had there been vapours drifting and frothing where there were now but shadows of clouds, it would have set stirring in one, as few places even in Ireland can, a thought that is peculiar to Celtic romance, as I think, a thought of a mystery coming not as with Gothic nations out of the pressure of darkness, but out of great spaces and windy light.
